**Subject:** RE: Blades Groundwater Site - Proposed Plan Forward

Good Morning Connor;

I agree with Yazmine, after our meeting on Thursday, **Ex. 5 Deliberative Process (DP)**

However, I'm not sure if you can enter the new site in SEMs without briefing upper management and HQs. Please let me check the protocol for adding PFAS sites in SEMs.

Good Luck on your briefing.

Thanks  
Anita

I recommend we **Ex. 5 Deliberative Process (DP)** start preparing your briefing materials for Karen at the PFAS Meeting.

You did a good job outlining the details of your plan. Nice work!

Thanks,  
Yaz

**Subject:** Blades Groundwater Site - Proposed Plan Forward

Yazmine and Anita,

From our conversation earlier, and after speaking with Steve this afternoon, I wanted to present our proposed plan for the site.

After consultation with DNREC and reviewing all available sample information and site data. The State and I agree that additional investigation may be needed. I wanted to present this plan forward that would initiate further investigation of the facilities and determine an absence or presence of PFAS and metals contamination which has been identified as migrating to the public and residential wells.

**Potential Scenarios:**

- 1) State Lead: **Ex. 5 Deliberative Process (DP)**  
**Ex. 5 Deliberative Process (DP)** OR:
- 2) EPA Lead: **Ex. 5 Deliberative Process (DP)**  
**Ex. 5 Deliberative Process (DP)**

**Potential Scenario 1:**

**Ex. 5 Deliberative Process (DP)**

**Potential Scenario 2:**

**Ex. 5 Deliberative Process (DP)**

Please let me know if I missed anything from our conversation earlier today. Steve indicated that before we can conduct activities we need to present it at our PFAS meeting to Karen in two weeks, and then consult Headquarters with our plans.

Thank you.
